

# RESPONDER

BE THE FIRST  
ON SCENE!

The new Braun Responder is designed to maximize working space and utilizes the markets top innovative features for optimal crew and patient safety in a compact quality ambulance. Designed for the Sprinter Chassis to maximize the chassis available payload while providing easy access interior storage cabinets for quick efficient patient care. The work center includes the MasterTech

IV operation screen to control the module functions with just a touch. The forward facing seating configuration allows for excellent patient interaction and the ability to stay belted-in position during transport. An all LED Warning Light Package ensures day and nighttime visibility when on-scene.
